EPSON®

PRESENT SMARTLY

EPSON®
EXCEED YOUR VISION

EPSON **EB-8 SERIES**

These four lightweight projectors have everything you need to give a successful presentation. Providing great images and innovative features, they are easy to use and highly energy-efficient.

Wide connectivity and new features

The Epson EB-8 Series (84, 85, 825, 826W) provides many features to improve the quality of your projection experience. These include microphone input and powerful integrated speakers for easier speaking in a large room; USB Direct connection, which allows you to plug in the new Epson Visualiser and project a source document or 3D objects directly, as well as normal projection from a PC onto a larger screen. And so that you can focus on your audience and your presentation, all of these features are accessible from the new remote control.

Exploit your network

You can remotely configure and operate the projector over your network with ease, thanks to Epson EMP Monitor™ software. For example, you can set an e-mail alert for the internal temperature of your projector or to monitor lamp status, and have advanced notice of any problems that could disrupt your presentation.

Thanks to their wide connectivity, mobility and easy, convenient features the EB-8 Series are perfect for use in educational environments.

Our contribution to the environment

The Epson EB-8 Series is designed and produced in compliance with our environmental policy. Energy efficiency is achieved with of a long lamp-life. Add in easy maintenance and the result is a low total cost of ownership, which makes these projectors particularly attractive.

Environmentally friendly and cost-effective

- Minimises power consumption when not in use (timer functions, rapid power on/off)
- Reduce pollution: no paint used in manufacture, 100% recyclable packaging
- Enjoy clear visibility in light rooms and save money thanks to the E-TORL Lamp - up to 6,000 hours lifetime in Eco mode

We are committed to providing the highest performance in our projectors by integrating innovative technologies.

3LCD

Without | With

3LCD technology provides superb image quality with smooth and natural colour reproduction.

Colour Light Output, the new metric for projector brightness

Epson provides Colour Light Output specification data. Colour Light Output measures a projector's ability to deliver colour. Colour Light Output provides users with a simple, accurate and easy to understand way to evaluate projector colour performance.

COMPACT, YET FULL OF SMART, CONVENIENT FEATURES

Jpeg viewer: go light, leave your PC behind. Simply plug in your USB key and start your presentations

Quick start, quick cool down: warms up in 8 seconds, cools down instantly

Great sound: amplify your voice in large or noisy rooms by using a microphone and the powerful 10W integrated speakers

Totally secure: it can be ceiling-mounted and secured by a reinforced bar and Kensington lock

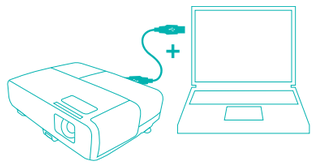
Quick and easy wireless connection*: plug the optional wireless module into your projector, and display your PC desktop within seconds

* Excludes EB-84

A/V mute slide: instantly cuts both projector and sound, enabling the audience to focus entirely on your presentation

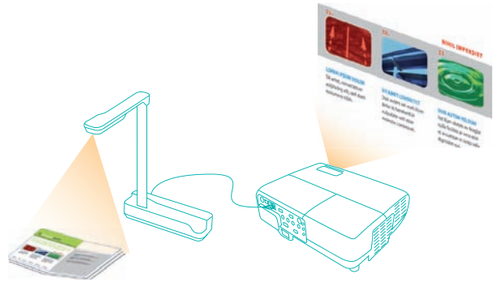
Simple and flexible installation: get perfect image on screen with the automatic keystone (± 30% vertically) and the new x1.6 optical zoom

CUTTING-EDGE CONNECTIONS: USB CABLE



The easiest way to project from a PC: 2-in-1 USB display

A single USB cable, connecting the projector to your PC, combines the functions of display and Page Up/Down, halving the number of cables you need.



Connection to the Epson Visualiser

Project documents and objects directly just by plugging in the new Epson Visualiser via a USB cable.
